

Minutes of the August 19, 1991 Regular Meeting of the P & Z Commission

Item #1: Consider proposed zoning ordinance amendment to change the density of use on single-family residential zoning and more specifically to include 2-story homes in the R-4 and R-7.2 residential zoning classification.

Motion made, seconded, and unanimously approved to recommend that council amend zoning ordinances to include 2-story homes in R-4 and R-7.2 residential zoning classifications. Furthermore, to avoid the possibility of small footprints 2-story houses in these zoning classifications, recommend that council further amend the ordinances to provide for a minimum first story area.

Meeting Adjourned.
