Executive Summary

The City has received the certified 2015 appraisal rolls from Dallas and Collin County Chief Appraisers. Combined taxable values total \$1,635,609,749.

Background

Budgetary Considerations

The final 2015-2016 budget will provide funding for continued operations of the City for the upcoming year.

CERTIFICATION OF 2015 PROPERTIES UNDER PROTEST AND NOT INCLUDED IN CERTIFIED ROLL ABOVE

FOR: SACHSE CITY

I, Bo Daffin, Chief Appraiser for the Collin Central Appraisal District, solemnly swear that the attached is that portion of the Appraisal Records of the Collin Central Appraisal District which lists property taxable by SACHSE CITY but NOT included on the Certified Appraisal Roll for SACHSE CITY, since these properties are currently under Protest. The protested property values are listed on the attached totals pages, with the subheading "Under ARB Review Totals".

**NOTE: Please be advised that the property values appearing on the 'Under ARB Review Totals' page in your certified totals packet reflect the current 2015 Market and Taxable Values for the properties Under ARB Review without any Section 26.01(c) adjustments. In order to arrive at the taxable value to use for the effective tax rate calculations for your entity, you will need to use the taxable value from the 'ARB Approved Totals' page, along with the 'Total Value Used' that appears in the Lower Value Used section on the Effective Rate Assumption page. The Total Value Used on the Effective Rate Assumption page is the assessed value Under ARB Review that has been calculated in accordance with Property Tax Code, Section 26.01(c). The 'Grand Totals' page is the combined 'ARB Approved Totals' plus the 'Under ARB Review Totals' – which have not been adjusted. (The formula for calculating the total taxable remaining under protest is as follows: Taxable Value from "ARB Approved Totals" plus Total Value Used from the "Effective Rate Assumptions" Lower Value Used section minus Total Exemptions amount from the "Under ARB Review Totals".)*

- 3.2 The RPC recognizes that the Commission reserves the right to monitor RPC financial procedures and validate financial reimbursement requests for compliance with applicable law, accuracy, completeness, and appropriateness, prior to the Commission distributing allocated 9-1-1 funds.

Article 4. Standard Interlocal Agreement with Local Governments

- 4.1 The RPC shall use interlocal agreements between itself and its local governments relating to the planning, development, operation, and provision of 9-1-1 service, the use of 9-1-1 funds and adherence to applicable law. These agreements must, at a minimum, provide for compliance with applicable law by including provisions that:

- (a) the RPC will provide 9-1-1 funds to the local governments on a cost reimbursement basis using a monitoring process that provides assurance that the reimbursement requests from the local governments are complete, accurate, and appropriate;
- (b) the RPC may withhold, decrease, or seek reimbursement of 9-1-1 funds in the event that those 9-1-1 funds were used in noncompliance with applicable law;

- (g) require a control system to be developed by the local government to ensure adequate safeguards to prevent loss, damage, or theft of 9-1-1 equipment;
- (h) require reimbursement to the RPC and/or the Commission for damage to 9-1-1 equipment; other than ordinary wear and tear;
- (i) the local governments will maintain adequate fiscal records and supporting documentation of all 9-1-1 funds reimbursed to such local governments for 9-1-1 service consistent with applicable law and generally accepted accounting principles, and as approved in the RPC's current approved Strategic Plan;
- (j) the Commission or its duly authorized representative shall have access to and the right to examine all books, accounts, records, files, and/or other papers, or property pertaining to the 9-1-1 service, belonging to or in use by the local government, the PSAP, or by any other entity that has performed or will perform activities related to the agreements;
- (k) the local government will provide 9-1-1 service as a condition of the receipt of 9-1-1 funds as prescribed by the RPC strategic plan; and
- (l) funding of 9-1-1 service is contingent on appropriations made to the Commission by the Texas Legislature, and if 9-1-1 funds are not made available to the RPC by the Commission or if legally available 9-1-1 funds are exhausted, then the RPC will not be obligated to provide the reimbursements contemplated by this Contract.

Article 5. Competitive Procurement and Contract Administration

- 5.1 The RPC may purchase goods or a service only if the RPC complies with the same provisions for purchasing goods or a service that are equivalent to the provisions applying to a local government, including Local Government Code Chapter 252, Purchasing and Contracting Authority of Municipalities.
- 5.2 The RPC shall include a specific, detailed statement of work, including appropriate benchmarks to evaluate compliance, in all contracts with vendors, local governments, PSAPs, and others paid from 9-1-1 funds.
- 5.3 The RPC shall implement and/or maintain a contract administration management system that ensures contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.
- 5.4 The RPC shall maintain sufficient records detailing the history of procurement, including the rationale for the method of procurement, the selection of contract type, the contractor selection or rejection, and the basis for the contract price, as outlined in the records retention requirements in UGMS.

Article 6. Allocation and Use of 9-1-1 Funds

- 6.1 In accordance with applicable law, the Commission shall allocate 9-1-1 funds appropriated to the Commission to the RPC solely for use in carrying out its Commission-approved strategic plan. Funds will be distributed to the RPC quarterly, according to current Commission payment methodology as set forth in Commission policy, unless the RPC is in substantial noncompliance with any applicable law or provision of this Contract. The RPC shall utilize the money allocated only for providing 9-1-1 service within the RPC's jurisdiction.
- 6.2 None of the 9-1-1 funds appropriated to the Commission and allocated to the RPC may be used to replace or fund a reserve for future replacement of 9-1-1 equipment.
- 6.3 The RPC shall assist the Commission in creating a comprehensive statewide 10-year equipment replacement schedule for submittal to the Legislative Budget Board no later than November 1st of each calendar year.
- 6.4 As provided by Health & Safety Code Section 771.078(d), not more than ten percent (10%) of the money received by the RPC may be used by the RPC for indirect costs. In this subsection, "indirect costs" means costs that are not directly attributable to a single action of the RPC. (Note: In administering this subsection, the Office of the Comptroller is required to use Federal Office of Management and Budget circulars A-87 and A-122 or any rules relating to the determination of indirect costs adopted under Texas Government Code Chapter 783.)
- 6.5 As provided by Health & Safety Code Section 771.078(f), upon request from the RPC, the Commission shall provide the RPC with documentation and financial records of the amount of money collected in its region or of an amount of money allocated to the RPC in accordance with Health & Safety Code Section 771.078 and this Contract.

Article 7. 9-1-1 Funds Distribution

- 7.1 Per Health and Safety Code Section 771.078(c), the Commission will make quarterly distributions due under this Contract to the RPC. The initial quarterly distribution, made in accordance with PPS 001: *Regional Program Start Up Funding* by September 30 of each fiscal year.
- 7.2 If the RPC's quarterly distribution is depleted before the end of a fiscal quarter, a financial emergency funding request may be submitted by the RPC to the Commission (see Article 8. RPC Emergency Funding).
- 7.3 Notwithstanding initial Start Up Funding, reimbursement of expenditures reported by the RPC shall be made on a fiscal quarter basis in accordance with PPS 004: *Reimbursement of Program Expenditures*.
- 7.4 Per PPS 014: *Asset Inventory Reporting* and PPS 017: *Certification of Interlocal Agreements*, the Commission will not disburse any funds under this Contract prior to the receipt of (1) annual submission of the certification of assets and report on the disposition of equipment; and (2) annual certification of interlocal agreements, respectively.
- 7.5 Any remaining 9-1-1 funds provided by the Commission to the RPC from the prior fiscal year, ending on August 31st, shall be returned to the Commission no later than October 30th of the current fiscal year.

Article 8. RPC Emergency 9-1-1 Funding

- 8.1 Notwithstanding the requirements in Article 7, the Commission may distribute, in accordance with Commission PPS 005: *Emergency Funding*, allocated 9-1-1 funds to the RPC upon demonstration that a financial emergency exists that will compromise the provision of 9-1-1 service or impact public safety.
- 8.2 The Commission shall consider a financial emergency as a situation in which the RPC requires additional funding to sustain the operation of 9-1-1 systems and their administration, as well as to meet contractual obligations as provided for in the RPC's approved strategic plan; and that, without the disbursement of the additional funds, would result in a compromise of the 9-1-1 system or impact public safety. A financial emergency would arise, and public safety compromised, if the 9-1-1 system was terminated due to non-payment of invoices.
- 8.3 Emergency 9-1-1 funds may be disbursed based upon the documented expenditures creating the need. The provision of emergency 9-1-1 funds will be used for specific operational and administrative expenses identified in the supporting documentation provided by the RPC.
- 8.4 The Commission will review the request for compliance with the current approved strategic plan and applicable law. Upon approval of the request, the Commission will disburse the necessary 9-1-1 funds, not to exceed the total allocated to the RPC in its Commission-approved strategic plan.

Article 9. Strategic Planning

- 9.1 In accordance with applicable law, the RPC shall develop a strategic plan for the establishment and operation of 9-1-1 service throughout its region. The 9-1-1 service must meet the standards established by the Commission. A strategic plan must describe how 9-1-1 service is to be administered. The RPC's Commission-approved strategic plan, as amended, is incorporated in its entirety herein by reference only.
- 9.2 The RPC must update its strategic plan at least once during each state fiscal biennium, and must include the following:
- (a) a description of how money allocated to the region is to be allocated throughout the region served by the RPC;

 - (c) strategic planning information for the five state fiscal years following submission of the plan; and
 - (d) a Historically Underutilized Business (HUB) plan, pursuant to Chapter 2161 of the Government Code.
- 9.3 The RPC shall submit a strategic plan, or amendment to its plan, to the Commission for review and approval or disapproval, as required by Health & Safety Code Section 771.056, Commission Rule 251.1, *Regional Strategic Plans for 9-1-1 Service*, PPS 033: *Regional Planning Commission Strategic Planning*, and PPS 008: *Plan Amendments*. The Commission, consistent with applicable law, shall consider the appropriateness of the strategic plan or amendment thereto in satisfying the standards set by the Commission, the cost and effectiveness of the strategic plan or amendment, as well as the appropriateness of the strategic plan or amendment in context with overall statewide 9-1-1 service.
- 9.4 The Commission shall notify the RPC of the approval or disapproval of the strategic plan submission, or amendment to the plan, in accordance with applicable law.
- 9.5 If the strategic plan or amendment thereto is approved, the Commission shall allocate 9-1-1 funds to the RPC in accordance with the terms of this Contract and applicable law.
- 9.6 A summary of the approved RPC 9-1-1 strategic plan costs and revenue allocations is incorporated herein as Attachment A, *Recipient 9-1-1 Costs Summary*.

Article 11. Use and Creation of Public Safety Answering Points

- 11.1 The RPC shall comply with the minimum standards and guidelines established by Commission Rule 251.1, *Regional Strategic Plans for 9-1-1 Service*, for the use of PSAPs and the creation of PSAPs per PPS 026: *Adding a Public Safety Answering Point*.

Article 12. Dispute Resolution

- 12.1 The dispute resolution process provided for in Government Code Chapter 2260, Subsection F, shall be used by the Commission and the RPC to attempt to resolve disputes arising under this Contract. Disputes include, but are not limited to, disagreement between the parties about the meaning or application of the RPC's proposed or approved strategic plan, or this Contract.
- 12.2 The parties desire to resolve disputes without litigation. Accordingly, if a dispute arises, the parties agree to attempt in good faith to resolve the dispute between themselves. To this end, the parties agree not to sue one another, except to enforce compliance with this Article 12, until they have exhausted the procedures set out in this Article 12.
- 12.3 At the written request of either party, each party shall appoint one non-lawyer representative to negotiate informally and in good faith to resolve any dispute arising between the parties. The parties agree to appoint their representatives and hold the first negotiating meeting within 15 calendar days of receipt of the request. The representatives appointed shall determine the location, format, frequency, and duration of the negotiations.
- 12.4 If the representatives cannot resolve the dispute within 30 calendar days after the first negotiation meeting, the parties agree to submit the dispute to mediation by an administrative law judge employed by the State Office of Administrative Hearings (SOAH) per Government Code Chapter 2009.
- 12.5 Within 45 calendar days after the effective date of this Contract, the Commission agrees to contract with SOAH to mediate any future disputes between the parties

described in Article 12.1. Each party agrees to pay one-half the total fee and expenses SOAH charges for conducting a mediation, and the Commission agrees that the RPC's share of the total is an allowable cost reimbursable to the RPC under this Contract.

- 12.6 The parties agree to continue performing their duties under this Contract, which are unaffected by the dispute, during the negotiation and mediation process.
- 12.7 If the parties are unable to settle their dispute by mediation, either party may request a contested case hearing under Texas Government Code Section 2260.102.
- 12.8 Nothing in this Article 12 shall be considered as a waiver of sovereign immunity.

Article 13. Miscellaneous Provisions

- 13.1 The RPC shall work with the Commission and local governments to develop, maintain and regularly monitor the operation and the provision of 9-1-1 service and to develop and implement risk assessment processes in accordance with PPS 013: *Quarterly Performance Reporting*; and PPS 031: *Local Monitoring*.
- 13.2 When the RPC becomes aware of the need for additional training or expertise relating to the planning, development, implementation or operation of 9-1-1 service, by the RPC or the local governments in their areas, the RPC shall notify the Commission promptly so that all parties may address the need in a timely manner.
- 13.3 Unless otherwise directed by the Commission, the RPC shall arrange for the performance of an annual financial and compliance audit of its financial statements and internal control environment according to the requirements of UGMS and the Texas Single Audit Circular, as established by the Office of the Comptroller (Title 34, Part 1, Chapter 20, Subchapter I, Rule 20.432) pursuant to Government Code Chapter 783. The RPC shall be liable to the Commission for any costs disallowed as a result of the audit of its financial statements and internal control environment.
- 13.4 The RPC recognizes the right of the State Auditor's Office to review and/or audit the RPC's documentation and accounts relevant to the state-funded 9-1-1 program as authorized by applicable law. Such an audit or review is considered separate and apart from audits required by UGMS.
- 13.5 The RPC shall provide, at a minimum, the Commission with all reports and/or information as required by applicable law.
- 13.6 In the event of any conflict between any provision in this Contract and an adopted Commission rule or policy, present or future, the Commission rule or policy shall take precedence.
- 13.7 This Contract sets forth all of the representations, promises, agreements, conditions, and understandings between the RPC and the Commission relating to the subject matter of the Contract, and supersedes any prior or contemporaneous

representations, promises, agreements, conditions, or understandings, whether oral or written, in any way relating to the subject matter hereof.

- 13.8 Any alterations, additions, or deletions to the terms of this Contract, except as provided via an approved amendment to the RPC's strategic plan, shall be made by amendment hereto in writing and executed by both parties to this Contract.
- 13.9 This Contract takes effect on September 1, 2013, and shall terminate on August 31, 2015.

Recognize and present a Unit Commendation to the Sachse Fire Rescue Department for going above and beyond to provide the best care available to a citizen of Sachse.

Executive Summary

All three shifts responded multiple times for assistance to a citizen of Sachse that had no place to turn.

Background

This citizen had surgery and was immediately discharged home. With no one at home to care for her, she turned to the Fire Rescue Department for assistance. Over the span of a couple of weeks each shift went to her residence to assist her with everything from lift help to making meals and straightening the house. The total call count rose to over 40 calls. Captain Hall contacted Medical Control to request assistance. The department along with Medical Control gathered stakeholders to assist this citizen. This quick action resulted in her getting the assistance she needed. A job well done. The Unit commendation will be awarded to the entire operations side of the Fire Rescue Department for their dedication to this citizen of Sachse.

Title

Hear and discuss the Fiscal Year 2015-2016 update to the Five Year Capital Improvement Plan (CIP).

Executive Summary

Each year during the budget process, the Capital Improvement Plan (CIP) is updated and adopted by the City Council along with the City's operating budget. This item is to discuss the update to the 5-year CIP.

Background

The City Council adopted the current Five Year Capital Improvement Plan as part of the 2014-2015 fiscal year operating budget in September of 2014. This item give the public the opportunity to provide input for selected projects and/or improvements to be considered for inclusion in the CIP.

Policy Considerations

The update to the Five Year Capital Improvement Plan (CIP) is an annual occurrence. Once the CIP has been revised, it is typically adopted at the time the operating budget is approved and updated as necessary during the fiscal year as changes need to occur.

The projects listed in the CIP were evaluated to ensure the cost estimates are reasonable to take into account price increases due to scope change and inflation in construction costs.

The waterline and sanitary sewer projects were re-prioritized to reflect the continuing development activity in Sachse and rehabilitation needs. The roadway projects were re-prioritized to reflect public-private partnerships and funding from the Street Maintenance Tax. The updated CIP is shown in Attachment 1.

Budgetary Considerations

The projects listed in the 2015-2016 fiscal year will be funded using available fund balances in various accounts (water, sanitary sewer, and roadway impact fees, 2006 Transportation Bond, Capital Projects fund, Street Maintenance Tax fund).

Available Funding

The current available funds as of this meeting are shown below, with the remaining funds after the recommended projects shown in parentheses:

- Roadway Impact Fees:	\$1,452,518.00	(\$1,314,518.00)
- Water Impact Fees:	\$672,631.00	(\$382,631.00)
- Sanitary Sewer Impact Fees:	\$728,671.00	(\$428,671.00)
- Capital Projects Fund:	\$323,380.00	(\$28,380.00)
- 2006 Bond Fund:	\$4,513,900	(\$3,014,213.00)
- RCC Fund:	\$176,063.00*	(\$0.00)
- Street Maintenance Tax Fund:	\$304,879**	(\$TBD)

*The RCC Fund is no longer receiving any new funds. Staff is recommending that the remaining funds in the RCC Fund be allocated to the SH 78 Street Lighting Project, and any remaining funds at the end of the project be moved to the Capital Projects Fund.

**The projected funds from the Street Maintenance Tax for FY14-15 amount to \$304,879.00.

Once it was determined how much funding is available to fund CIP projects, the projects were prioritized and the highest priority projects were shown in the 2015-2016 CIP. The CIP includes the following recommended project funding for FY 2015-16:

Multiple important construction projects were completed in the 2014-2015 fiscal year, including the construction of Woodbridge Parkway from Cody Lane to Wylie, Maxwell Creek Road from Ranch Road to Keith Lane, and the re-construction of Williford Road and Big Valley Lane. In addition, the widening of Ranch Road from Harlan Drive to Clearmeadow Lane and the construction of improvements for the railroad quiet zone are underway. Looking forward to 2015-2016 and beyond, there are several major infrastructure projects on the horizon. The final design for the widening of 5th Street and Sachse Road will begin this fall. The design of the future southeast water tower will begin in FY 2015-2016. In addition, the engineering design for the 3rd sanitary sewer connection to Garland is complete, and construction is anticipated to begin in FY 2015-2016. The street lighting improvements for State Highway 78 and 5th Street are also anticipated to be constructed. The projects shown in the out years ending in 2015-2018 do not have funding available to implement. However,

the projects listed for these years are included in the CIP for planning purposes.

Staff Recommendations

No action is necessary for this item. Staff will solicit input from the City Council and the public on the proposed revisions to the 5-year CIP. Staff will also solicit input from the City Council and the public on the methodology for selecting street maintenance projects to be completed in the 2015-2016 fiscal year, using the Street Maintenance Tax funds. Staff will revise the CIP based upon the feedback received, and present a final draft at the August 17th meeting. The 5-year CIP will be adopted with the FY 2015-2016 operating budget.

STREET MAINTENANCE REPORT

FY 2015-2016

Sachse is a tranquil community welcoming the future while offering a safe and enjoyable quality of life to all those who call Sachse home.

Overview

In an effort to better identify, quantify, and plan for the maintenance needs of public streets in the City of Sachse, City staff has prepared the 2015-2016 Street Maintenance Report. This report provides the findings of City staff regarding 43 streets within the City that are known to have current maintenance needs. Staff utilized the Pavement Surface Evaluation and Rating system (PASER) to evaluate and score the streets identified in the report.

The intent of this report is to become a living document that is updated annually. The document will grow over time to include all streets within the City which are identified to have maintenance needs. As streets are improved or re-constructed, they may be removed from the report. The City will continue to identify street maintenance needs, utilize the PASER system to score each street, and document the findings in future years.

PASER

The PASER system was developed by the University of Wisconsin-Madison in conjunction with the Federal Highway Administration, the State of Wisconsin, and transportation professionals. The system provides a simple method for public officials to review and score public streets of various paving types, based upon visual observations. The PASER system is commonly utilized throughout the United States, and the Dallas-Fort Worth region by many municipalities and public agencies.

Report Documents

Included in this report are the following items:

- PASER Concrete street scoring sheet
- PASER Asphalt street scoring sheet
- Spreadsheet of all identified streets and estimated maintenance costs
- Individual sheets for each of the 25 concrete streets and 18 asphalt streets included in the report

Concrete Streets

Rating system

Surface rating	Visible distress*	General condition/ treatment measures
10 Excellent	None.	New pavement. No maintenance required.
9 Excellent	Traffic wear in wheelpath. Slight map cracking or pop-outs.	Recent concrete overlay or joint rehabilitation. Like new condition. No maintenance required.
8 Very Good	Pop-outs, map cracking, or minor surface defects. Slight surface scaling. Partial loss of joint sealant. Isolated meander cracks, tight or well sealed. Isolated cracks at manholes, tight or well sealed.	More surface wear or slight defects. Little or no maintenance required.
7 Good	More extensive surface scaling. Some open joints. Isolated transverse or longitudinal cracks, tight or well sealed. Some manhole displacement and cracking. First utility patch, in good condition. First noticeable settlement or heave area.	First sign of transverse cracks (all tight); first utility patch. More extensive surface scaling. Seal open joints and other routine maintenance.
6 Good	Moderate scaling in several locations. A few isolated surface spalls. Shallow reinforcement causing cracks. Several corner cracks, tight or well sealed. Open (1/4" wide) longitudinal or transverse joints and more frequent transverse cracks (some open 1/4").	First signs of shallow reinforcement or corner cracking. Needs general joint and crack sealing. Scaled areas could be overlaid.
5 Fair	Moderate to severe polishing or scaling over 25% of the surface. High reinforcing steel causing surface spalling. Some joints and cracks have begun spalling. First signs of joint or crack faulting (1/4"). Multiple corner cracks with broken pieces. Moderate settlement or frost heave areas. Patching showing distress.	First signs of joint or crack spalling or faulting. Grind to repair surface defects. Some partial depth patching or joint repairs needed.
4 Fair	Severe polishing, scaling, map cracking, or spalling over 50% of the area. Joints and cracks show moderate to severe spalling. Pumping and faulting of joints (1/2") with fair ride. Several slabs have multiple transverse or meander cracks with moderate spalling. Spalled area broken into several pieces. Corner cracks with missing pieces or patches. Pavement blowups.	Needs some full depth repairs, grinding, and/or asphalt overlay to correct surface defects.
3 Poor	Most joints and cracks are open, with multiple parallel cracks, severe spalling, or faulting. D-cracking is evident. Severe faulting (1") giving poor ride. Extensive patching in fair to poor condition. Many transverse and meander cracks, open and severely spalled.	Needs extensive full depth patching plus some full slab replacement.
2 Very Poor	Extensive slab cracking, severely spalled and patched. Joints failed. Patching in very poor condition. Severe and extensive settlements or frost heaves.	Recycle and/or rebuild pavement.
1 Failed	Restricted speed. Extensive potholes. Almost total loss of pavement integrity.	Total reconstruction.

* Individual pavements will not have all of the types of distress listed for any particular rating. They may have only one or two types.

Rating system

Surface rating	Visible distress*	General condition/ treatment measures
10 Excellent	None.	New construction.
9 Excellent	None.	Recent overlay. Like new.
8 Very Good	No longitudinal cracks except reflection of paving joints. Occasional transverse cracks, widely spaced (40' or greater). All cracks sealed or tight (open less than 1/4").	Recent sealcoat or new cold mix. Little or no maintenance required.
7 Good	Very slight or no raveling, surface shows some traffic wear. Longitudinal cracks (open 1/4") due to reflection or paving joints. Transverse cracks (open 1/4") spaced 10' or more apart, little or slight crack raveling. No patching or very few patches in excellent condition.	First signs of aging. Maintain with routine crack filling.
6 Good	Slight raveling (loss of fines) and traffic wear. Longitudinal cracks (open 1/4"–1/2"), some spaced less than 10'. First sign of block cracking. Slight to moderate flushing or polishing. Occasional patching in good condition.	Shows signs of aging. Sound structural condition. Could extend life with sealcoat.
5 Fair	Moderate to severe raveling (loss of fine and coarse aggregate). Longitudinal and transverse cracks (open 1/2") show first signs of slight raveling and secondary cracks. First signs of longitudinal cracks near pavement edge. Block cracking up to 50% of surface. Extensive to severe flushing or polishing. Some patching or edge wedging in good condition.	Surface aging. Sound structural condition. Needs sealcoat or thin non-structural overlay (less than 2")
4 Fair	Severe surface raveling. Multiple longitudinal and transverse cracking with slight raveling. Longitudinal cracking in wheel path. Block cracking (over 50% of surface). Patching in fair condition. Slight rutting or distortions (1/2" deep or less).	Significant aging and first signs of need for strengthening. Would benefit from a structural overlay (2" or more).
3 Poor	Closely spaced longitudinal and transverse cracks often showing raveling and crack erosion. Severe block cracking. Some alligator cracking (less than 25% of surface). Patches in fair to poor condition. Moderate rutting or distortion (1" or 2" deep). Occasional potholes.	Needs patching and repair prior to major overlay. Milling and removal of deterioration extends the life of overlay.
2 Very Poor	Alligator cracking (over 25% of surface). Severe distortions (over 2" deep). Extensive patching in poor condition. Potholes.	Severe deterioration. Needs reconstruction with extensive base repair. Pulverization of old pavement is effective.
1 Failed	Severe distress with extensive loss of surface integrity.	Failed. Needs total reconstruction.

* Individual pavements will not have all of the types of distress listed for any particular rating. They may have only one or two types.

Street Maintenance Tax Projects

- As part of the CIP Update process, staff reviews the conditions of existing streets and includes street rehabilitation needs in the CIP for Street Maintenance Tax (SMT) funding.
- For FY 2015-16, the anticipated available funding is \$304,879.
- This year, staff completed a more thorough assessment of City streets utilizing the PASER system to rate street conditions.

PASER Manual

- Pavement Surface Evaluation and Rating (PASER) is a commonly used system for evaluating the conditions of streets
- It was established by the University of Wisconsin-Madison
- Allows for simple and consistent scoring of street conditions
- The staff PASER assessment was completed in known areas of concern. It does not yet include every street in the City.
- Staff will continue to utilize the PASER system and review street conditions on an annual basis.

Street Maintenance Tax Projects

- To date, Staff has completed an assessment of 25 concrete streets and 18 asphalt streets in need of maintenance
- Staff will continue to assess streets throughout the City, to develop a comprehensive list of streets that are in need of maintenance and identify both scope and cost

Title

Consider a motion and vote to place as an action item on the September 14, 2015 special City Council meeting agenda a proposal to adopt a tax rate of 0.757279 per \$100 assessed property valuation for the 2015-2016 fiscal year, and to schedule two public hearings to be held on August 17, 2015 at 7:30 p.m. and September 1, 2015 at 7:30 p.m. at City of Sachse City Hall, 3815-B Sachse Road, Sachse, Texas.

Executive Summary

City Council should adopt a tax rate that will, at a minimum, support the operations and cover the debt obligations of the City for the 2015-2016 fiscal year. The proposed tax rate of 0.757279 per \$100 of assessed property values accomplishes this. The tax rate exceeds the Effective Tax rate as determined by the Dallas County Tax Assessor/Collector; therefore, public hearings must be scheduled and the public notified.

Background

When a proposed tax rate exceeds the rollback or the effective tax rate, whichever is lower, a vote to place a proposal to adopt the rate on the agenda of a future meeting as an action item is required. This vote must be recorded, the proposal must specify the desired rate, two

public hearings must be scheduled, and the public notified regarding the dates, times, and place for the hearings.

The proposed rate of 0.757279 per \$100 assessed valuation is the rollback rate as calculated by Dallas County Tax Assessor. The Proposed Budget which is being presented tonight is based on a rate of 0.742769, which is the Rollback rate as estimated by City staff. The proposal being acted on here sets the maximum rate which would be considered.

Policy Considerations

The City of Sachse Fiscal and Budgetary Policy states that the debt to operations component of the tax rate should not exceed 30%. The proposed rate of 0.757279 is comprised of a Maintenance and Operations (M&O) rate of .0.572279 and an Interest and Sinking (I&S) rate of 0.185000 for a ratio of 75.6% to 24.4%.

Budgetary Considerations

City Council will need to consider setting and adopting a tax rate on a future agenda that supports the overall budget objectives as proposed for the 2015-2016 fiscal year.

Staff Recommendations

Staff recommends the City Council vote to place a proposal to adopt a tax rate of \$0.757279 per \$100 of assessed property values for the 2015-2016 fiscal year as an action item on the September 14, 2015 special City Council meeting agenda and schedule two public hearings to be held August 17, 2015 at 7:30 p.m. and September 1, 2015 at 7:30 p.m. at City of Sachse City Hall, 3815-B Sachse Road, Sachse, Texas.

Notice of Public Hearing on Tax Increase

The City of Sachse will hold two public hearings on a proposal to increase total tax revenues from properties on the tax roll in the preceding tax year by 6.15 percent (percentage by which proposed tax rate exceeds lower of rollback tax rate or effective tax calculated under Chapter 26, Tax Code). Your individual taxes may increase at a greater or lesser rate, or even decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property and the tax rate that is adopted.

The first public hearing will be held on August 17, 2015 at 7:30 p.m. at City of Sachse, City Hall, 3815-B Sachse Road, Sachse, Texas.

The second public hearing will be held on September 1, 2015 at 7:30 p.m. at City of Sachse, City Hall, 3815-B Sachse Road, Sachse, Texas.

The members of the governing body voted on the proposal to consider the tax increase as follows:

FOR:

AGAINST:

The average taxable value of a residence homestead in City of Sachse last year was \$177,186. Based on last year's tax rate of \$0.770819 per \$100 of taxable value, the amount of taxes imposed last year on the average home was \$1,366.

The average taxable value of a residence homestead in City of Sachse this year is \$196,126. If the governing body adopts the effective tax rate for this year of \$0.713377 per \$100 of taxable value, the amount of taxes imposed this year on the average home would be \$1,399.

If the governing body adopts the proposed tax rate of \$0.757279 per \$100 of taxable value, the amount of taxes imposed this year on the average home would be \$1,485.

Members of the public are encouraged to attend the hearings and express their views.
