The Federal Open Market Committee (FOMC) maintained the Fed Funds target range 5.25% - 5.50% (Effective Fed Funds are trading +/-5.33%). Expectations are for reduced future rates, but any actions will be meeting-by-meeting and "data-dependent." June Non-Farm Payroll slightly exceeded expectations at 206k new jobs, but the previous two months were revised down causing the Three Month Rolling Average to fall to 177k. Final First Quarter 2024 GDP reported +1.4%. The S&P 500 Stock Index created new highs above +/-5,500. The yield curve remains inverted but longer yields rose slightly. Crude Oil trades over \$80 per barrel. Inflation declined slightly but remains above the FOMC 2% target (Core PCE +/-2.6% and Core CPI +/-3.4%). Reduced global economic outlooks and ongoing/expanding military conflicts continue increasing uncertainty.

Notes:

Consistent with City policy, investment activity is attributed to all of the City's accounting funds collectively and on a proportional basis to each fund's total cash balance.

The City does not carry any security instrument (investment type) on its books that is traded on the open market; therefore, all investments are listed at 100% of market value.

It is the strategy of the Finance Department to maintain a high percentage of its idle funds invested in safe and secure investment securities and pooled investment types in accordance with the Public Funds Investment Act.

The City's investments are liquid and have same day access (although may be subject to an early withdrawal penalty). The City's funds are swept into the above accounts and are withdrawn as needed for operational cash flow requirements.

Economic Overview

9/30/2024

The Federal Open Market Committee (FOMC) reduced the Fed Funds target range 0.50% to 4.75% - 5.00% (Effective Fed Funds trade +/-4.83%). Expectations are for two more 0.25% cuts by 12/31, although any actions will be meeting-by-meeting and "data-dependent." Sep Non-Farm Payroll surged 254k new jobs (above expectation), with the previous two months revised up boosting the Three Month Rolling Average 186k (from the previous 116k). Second Quarter 2024 GDP remained +3.0% due to increased consumer spending. The S&P 500 Stock Index exceeded 5,700 making new records. The yield curve dropped with the FOMC action and anticipated future actions. Crude Oil drifted slightly higher to +/- \$74 per barrel. Inflation remains above the FOMC 2% target (Core PCE +/-2.7% and Core CPI +/-3.2%). Declining global economic outlook, ongoing/expanding military conflicts and the domestic elections increase uncertainty.

Notes:

Consistent with City policy, investment activity is attributed to all of the City's accounting funds collectively and on a proportional basis to each fund's total cash balance.

The City does not carry any security instrument (investment type) on its books that is traded on the open market; therefore, all investments are listed at 100% of market value.

It is the strategy of the Finance Department to maintain a high percentage of its idle funds invested in safe and secure investment securities and pooled investment types in accordance with the Public Funds Investment Act.

The City's investments are liquid and have same day access (although may be subject to an early withdrawal penalty). The City's funds are swept into the above accounts and are withdrawn as needed for operational cash flow requirements.

Notes:

Consistent with City policy, investment activity is attributed to all of the City’s accounting funds collectively and on a proportional basis to each fund’s total cash balance.

The City does not carry any security instrument (investment type) on its books that is traded on the open market; therefore, all investments are listed at 100% of market value.

It is the strategy of the Finance Department to maintain a high percentage of its idle funds invested in safe and secure investment securities and pooled investment types in accordance with the Public Funds Investment Act.

The City’s investments are liquid and have same day access (although may be subject to an early withdrawal penalty). The City’s funds are swept into the above accounts and are withdrawn as needed for operational cash flow requirements.

CITY OF SACHSE
SACHSE ECONOMIC DEVELOPMENT CORPORATION

TAX INCREMENT REINVESTMENT ZONE NUMBER THREE
INVESTMENT POLICY

I. Policy

Throughout this Investment Policy, the City of Sachse, Sachse Economic Development Corporation, Sachse Municipal Development District, Tax Increment Financing Reinvestment Zone Number One, Tax Increment Financing Reinvestment Zone Number Two, and Tax Increment Reinvestment Zone Number Three shall be singularly referred to as "ENTITY" and collectively referred to as "SACHSE."

It is the policy of SACHSE to invest public funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of SACHSE and conforming to the Public Funds Investment Act ("PFIA"), Chapter 2256 of the Texas Government Code, the Public Funds Collateral Act ("PFCA"), Chapter 2257 of the Texas Government Code, and all other State and local statutes governing the investment of public funds.

II. Scope

This Investment Policy applies to all funds or financial resources available for investment under SACHSE's financial control and accounted for in the City of Sachse's Annual Comprehensive Financial Report (ACFR) which includes the General Fund, Debt Service Fund, Special Revenue Fund, Capital Projects Fund, Utility Fund, Sachse Economic Development Corporation Fund, President George Bush Turnpike Reinvestment Zone Tax Increment Fund, Tax Increment Financing Reinvestment Zone Number Two, Tax Increment Reinvestment Zone Number Three, and any new fund created by SACHSE unless specifically exempt.

To maximize the effective investment of assets, all funds may pool their cash balances for investment purposes. The income derived from investing activities will be distributed to the various funds based on calculation of their average balances.

III. Prudence

Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of their capital and the probable income to be derived.

The standard of prudence to be used by Investment Officers shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. Investment Officers, acting in accordance with written procedures and the Investment Policy and exercising due diligence, shall be relieved of personal responsibility for an individual investment's credit risk or market price changes, provided deviation from expectations are reported immediately upon knowledge of the deviation and appropriate action is taken to control adverse developments.

IV. Objective

The primary objectives, in priority order, of SACHSE investment activities shall be:

- A. **Safety:** Safety of principal is the foremost objective of the investment program. Investments of SACHSE shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio.
- B. **Liquidity:** The SACHSE investment portfolio will remain sufficiently liquid to enable SACHSE to meet all operating requirements which might be reasonably anticipated.
- C. **Public Trust:** Investment Officers shall seek to act responsibly as custodians of the public trust. Investment Officers shall avoid any transaction that might impair public confidence in SACHSE's ability to govern effectively.
- D. **Return on Investments:** SACHSE's investment portfolio shall be designed with the objective of attaining a rate of return throughout budgetary and economic cycles, commensurate with SACHSE's investment risk constraints and the cash flow characteristics of the portfolio.

V. Delegation of Authority

Management responsibility for the investment program is hereby delegated to the Director of Finance, the Assistant Director of Finance and the Senior Accountant of the City of Sachse (the "Investment Officers"). The Director of Finance shall establish written procedures for the operation of the investment program consistent with this Investment Policy. Procedures should include reference to: safekeeping or custody, repurchase agreements, wire transfer agreements, banking service contracts, and collateral/depository agreements. Such procedures shall include explicit delegation of authority to persons responsible for investment transactions. No person may engage in an investment transaction except as provided under the terms of this Investment Policy and the procedures established by the Director of Finance. The Investment Officers shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinates. The City may contract with a registered investment advisor for the management of the City's portfolio. The advisor shall review the Investment Policy and execute all transactions in accordance with the provisions and controls of the Investment Policy.

VI. Ethics and Conflicts of Interest

Investment Officers involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Investment Officers shall disclose to SACHSE any material financial interest in financial institutions that conduct business within this jurisdiction, and they shall further disclose any large personal financial/investment positions that could be related to the performance of SACHSE, particularly with regard to the time of purchases and sales.

Investment Officers involved in the investment process shall adhere to the business relationship and other disclosure requirements as described in the PFIA 2256.005(i) by filing statements with the Texas Ethics Commission and each ENTITY's governing body.

VII. Authorized Broker/Dealers

The list of authorized broker/dealers shall be annually approved by the City Council (Appendix A). These may include "primary" dealers or regional dealers that qualify under Securities & Exchange Commission Rule 15C3-1 (uniform net capital rule).

All financial institutions and broker/dealers who desire to become qualified bidders for investment transactions must supply the Investment Officer with the following: audited financial statements, proof of Financial Industry Regulatory Authority (FINRA) certification, trading resolution, and/or proof of State registration, as applicable.

It is at the discretion of the Investment Officer as to which authorized broker/dealer shall be used for any buy/sell transactions.

VIII. Investment Strategy

SACHSE's basic investment strategy for all financial assets is to preserve principal. In order to achieve that objective, SACHSE restricts the authorized investment instruments to those with suitable and limited credit and market risk. In order to make effective use of SACHSE's resources, all monies may be pooled into one portfolio, if practical, except for those monies required to be accounted for in other accounts as stipulated by applicable laws, bond covenants, ordinances, contracts, agreements, or other policies.

The objective of liquidity stems from the need of SACHSE to maintain available cash balances sufficient to cover financial outlays. Since the timing and amount of some financial disbursements are not predictable, fund-type strategies shall adjust for the uncertainty of projected cash flows.

Investment marketability will be maintained based on the fund-type strategies to sufficiently and reasonably assure that investments could be liquidated prior to the maturity, if cash needs dictate.

Whenever practical or appropriate, it is the policy of SACHSE to diversify its investment portfolio. Assets held in the investment portfolio may be diversified to minimize the risk of loss resulting from concentration of assets in a specific maturity, a specific issuer, or a specific class of investment.

SACHSE funds shall seek to achieve a competitive yield appropriate for each strategy. Yield objectives shall at all times be subordinate to the objectives of safety and liquidity. Tax-exempt debt proceeds shall be invested to maximize the interest earnings retained by SACHSE, while at the same time fully complying with all applicable State laws and federal regulations, including the arbitrage rebate regulations. A competitive yield environment shall be achieved by soliciting quotes from multiple investment providers, monitoring comparable investment alternatives, and reviewing general market conditions.

The overall investment strategy of SACHSE is based on the premise that a certain amount of SACHSE's funds will be needed to pay current year expenditures or for projects that are to be complete within a specific time frame. Remaining funds are considered to be reserves and, barring any unforeseen emergencies or events beyond SACHSE's control, it is considered that these funds may be invested, within the maturity limits of this Policy, in an advantageous position on the yield curve. It is understood that investments in longer term instruments are sensitive to changes in interest rates and other market conditions; however, it is SACHSE's belief that such investments may be held to maturity if necessary.

SACHSE may maintain one portfolio in which all funds under its control are pooled for investment purposes. Within the pooled portfolio are fund components, each having an investment strategy as described below:

- A. Governmental Funds – the funds through which most governmental functions are financed and the primary operating funds of SACHSE. The investment strategy must allow for the investment of anticipated cash flows to meet the anticipated expenditures of the following funds:
 - 1. General Fund
 - 2. Debt Service Fund
 - 3. Special Revenue Fund
 - 4. Capital Projects Fund
 - 5. Sachse Economic Development Corporation Fund
 - 6. Tax Increment Financing Reinvestment Zone Number One
 - 7. Tax Increment Financing Reinvestment Zone Number Two

8. Tax Increment Reinvestment Zone Number Three

The yield of an equally weighted, rolling three-month Treasury Bill portfolio will be the minimum yield objective.

- B. Proprietary Funds - the funds used in SACHSE's business-type activities or Enterprise activities financed primarily by user charges and fees. The strategy for these funds is to time investment maturities to anticipated cash requirements. Some project funds may allow investments with short to intermediate maturities.

The yield of an equally weighted, rolling six-month Treasury Bill portfolio will be the minimum yield objective.

- C. The Debt Service and Interest/Sinking Funds should consist of short-term investments, whose maturities meet the scheduled debt service payments. Reserves may be invested in longer-term investments.

The yield of an equally weighted, rolling three-month Treasury Bill portfolio will be the minimum yield objective.

- D. Special Revenue Fund and other Non-operating Funds investments should be in short-term instruments with maturities laddered to meet projected cash needs. Reserves are idle funds that may be invested in intermediate to long-term investments after analysis of future plans for use of the funds.

The yield of an equally weighted, rolling six-month Treasury Bill portfolio will be the minimum yield objective.

 - (b) a monthly report that contains, as a minimum, the following information:

4. SACHSE, by contract, may delegate to an investment pool the authority to hold legal title as custodian of investments purchased with its local funds.
 5. Investment Pool "yield" shall be calculated in accordance with regulations governing the registration of open-end management investment companies under the Investment Company Act of 1940, as promulgated from time to time by the Federal Securities and Exchange Commission.
 6. A public funds investment pool utilized as a cash-equivalent investment must mark its portfolio to market daily and, to the extent reasonably possible, stabilize at a \$1.00 net asset value. If the ratio of the market value of the portfolio divided by the book value of the portfolio is less than 0.995 or greater than 1.005, portfolio holdings may be sold as necessary to maintain the ratio between 0.995 and 1.005.
 7. An Investment pool must have an advisory board composed:
 - (a) Equally of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool, for pools created under Chapter 791 Texas State Code and managed by a state agency; or

- (b) of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool, for other investment pools.
8. A public funds investment pool must be continuously rated no lower than AAA or AAAM or at an equivalent rating by one nationally recognized rating service.
 9. If the investment pool operates an Internet website, the information in a disclosure instrument or report described in Subsections (b), (c)(2), and (f) must be posted on the website.
 10. To maintain eligibility to receive funds from and invest funds on behalf of an entity under this chapter, an investment pool must make available to the entity an annual audited financial statement of the investment pool in which the entity has funds invested.
 11. If an investment pool offers fee breakpoints based on fund balances invested, the investment pool in advertising investment rates must include either all levels of return based on the breakpoints provided or state the lowest possible level of return based on the smallest level of funds invested.

XI. Unauthorized Investments

The following are not authorized investments under this section:

- A. Obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal;

- B. Obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security collateral and bears no interest; and
- C. Collateralized mortgage obligations.

Any Authorized & Suitable Investment that requires a minimum rating does not qualify during the period the investment does not have the minimum rating. SACHSE shall take all prudent measures that are consistent with this Policy to liquidate an investment that does not have the minimum rating. Additionally, SACHSE is not required to liquidate investments that were authorized at the time of purchase.

XII. Primary Depository

In compliance with State legislation, a Primary Depository shall be selected through SACHSE's banking services procurement process, which shall include a formal request for application (RFA). In selecting a Primary Depository, the Director of Finance shall conduct a review of prospective depository's credit characteristics and financial history.

No public deposit shall be made except in a qualified public depository as established by State laws.

XIII. Collateralization

Collateralization will be required on two types of investments: financial institution deposits (in amounts exceeding FDIC or NCUSIF insurance coverage) and repurchase agreements. With the exception of Letters of Credit issued for 100% of amount, the minimum collateralization level will be 102% of market value of principal and accrued interest, less FDIC or NCUSIF insurance when applicable.

SACHSE chooses to limit collateral (including letters of credit) to the obligations of, or guaranteed by, governmental entities as outlined in the Public Funds Collateral Act.

All financial institution deposits shall be insured or collateralized in compliance with applicable State law. SACHSE reserves the right, in its sole discretion, to accept or reject any form of insurance or collateralization pledged towards financial institution deposits. Financial institutions serving as depositories will be required to sign a depository agreement with SACHSE. The collateralized deposit portion of the agreement shall define SACHSE's rights to the collateral in case of default, bankruptcy, or closing and shall establish a perfected security interest in compliance with Federal and State regulations, including:

- The agreement must be in writing;
- The agreement has to be executed by the Depository and SACHSE contemporaneously with the acquisition of the asset;

- The agreement must be approved by the Board of Directors or designated committee of the Depository and a copy of the meeting minutes must be delivered to SACHSE; and
- The agreement must be part of the Depository's "official record" continuously since its execution.

Securities pledged as collateral shall be held by an independent third party acceptable to SACHSE. The custodial agreement is to specify the acceptable investment securities as collateral, including provisions relating to possession of the collateral, the substitution or release of investment securities, ownership of securities at default, and the method of valuation of securities.

XIV. Safekeeping and Custody

All security transactions, including collateral for repurchase agreements, entered into by SACHSE shall be conducted on a delivery-versus-payment (DVP) basis. Securities will be held in an account in SACHSE's name by a third-party safekeeping agent/custodian designated by the Investment Officers and evidenced by safekeeping receipts or custody statements.

XV. Electronic Fund Transfer

SACHSE may use electronic means to transfer or invest all funds collected or controlled by the local government.

XVI. Diversification

SACHSE will diversify its investments by types, maturity dates, and/or institutions, as appropriate.

XVII. Maximum Maturities and Weighted Average Maturity

To the extent possible, SACHSE will attempt to match its anticipated cash flow requirements with maturing investments. SACHSE will not directly invest in instruments maturing more than 2 years from the date of purchase, with the maximum weighted average maturity for the total portfolio to not exceed twelve months. However, SACHSE may collateralize its repurchase agreements using longer dated investments not to exceed 5 years to maturity.

Reserve funds may be invested in instruments up to and including 5 years if the maturities of such investments are made to coincide as nearly as practicable with the expected use of the funds.

XVIII. Internal Control

The Director of Finance shall establish an annual process of independent review by an external auditor in conjunction with the annual audit. This review will provide internal control by assuring compliance with policies and procedures.

XIX. Performance Standards

The investment portfolio shall be designed with the objective of obtaining a rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs. "Weighted Average Yield to Maturity" shall be the standard for calculating portfolio rate of return.

XX. Reporting

- A. The Investment Officers shall prepare and submit quarterly a written report of investment transactions for all funds covered by this Investment Policy for the preceding reporting period.
- B. The report must include the following:
 - 1. describe in detail the investment position of SACHSE on the date of the report;
 - 2. be prepared jointly by all Investment Officers of SACHSE;
 - 3. be signed by each Investment Officer of SACHSE;
 - 4. contain a summary statement of each pooled fund group that states the:
 - (a) beginning market value for the reporting period;
 - (b) ending market value for the period; and
 - (c) fully accrued interest for the period.
 - 5. state the book value and market value of each separately invested asset at the beginning and end of the reporting period by type of asset and fund type invested;
 - 6. state the maturity date of each separately invested asset that has a maturity date;
 - 7. state the account or fund or pooled group fund in the local government for which each individual investment was acquired; and

8. state the compliance of the Investment Portfolio of the local government as it relates to:
 - (a) the Investment Strategy expressed in SACHSE's Investment Policy; and
 - (b) relevant provisions of the PFIA.
- C. The report shall be presented not less than quarterly to each ENTITY's governing body within a reasonable time after the end of the period.
- D. The market values and credit ratings presented in all portfolio reports shall be accurate and reliable estimates of the investment's true value and risk. Market value and credit rating sources may include, but are not limited to, rating agency reports, newspapers, financial websites, custodian reports, broker/dealer reports, and investment advisor research.

XXI. Investment Policy Adoption

SACHSE's Investment Policy shall be adopted by resolution of each ENTITY's governing body. This Policy shall be reviewed annually and any modifications made thereto must be approved by each ENTITY's governing body. Each ENTITY's governing body shall adopt a written instrument attesting to each annual review.

XXII. Auditor

As part of the annual audit, the independent auditor must formally review the quarterly investment reports to comply with the PFIA and report the results of that review to each ENTITY's governing body.

XXIII. Training

In order to ensure qualified and capable investment management, the Investment Officers, their designated subordinates, Treasurer, and Chief Financial Officer of SACHSE shall attend training that includes education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and PFIA compliance. SACHSE approves the Government Finance Officers Association, Government Finance Officers Association of Texas, Government Treasurers' Organization of Texas, North Central Texas Council of Governments, Texas City Managers Association, Texas Municipal League, and University of North Texas as independent sources of training.

Each individual shall attend training accumulating at least 10 hours of instruction within twelve months of assuming investment-related responsibilities; and shall then receive not less than 8 hours of investment-related instruction within each subsequent two-year period aligned with SACHSE's fiscal year end.

XXIV. Donated Investments

This Policy does not apply to an investment donated to SACHSE for a particular purpose or under terms of use specified by the donor.

XXV. Investment Policy Certification

The qualified representative of any business organization (including investment pool and discretionary investment management firm) offering to engage in an investment transaction must execute a written instrument substantially to the effect that the business organization has received and reviewed the Investment Policy and that the business organization has implemented reasonable procedures and controls in an effort to preclude imprudent investment activities arising out of investment transactions conducted between the organization and SACHSE.
